<b>Preface</b>	<b>3</b>
<b>Introduction</b>	<b>9</b>
1 Study tools	9
2 Reader's guide	10
3 Learning objectives and exam	11
<b>1 Emergency response principles</b>	<b>13</b>
1 Emergency response at every company	13
2 Emergency response matters	13
3 Emergency response intervention in the event of a fire	13
4 Emergency response intervention in the event of an injury	14
5 Working with the professional emergency services	15
6 Your emergency response team	15
7 Workplace safety	15
8 Personal responsibility	16
9 The importance of regular practice and refresher courses	16
10 Emergency response during a pandemic	16
<b>2 ER team tasks and interventions</b>	<b>17</b>
1 ER team tasks	17
2 ER intervention	20
2.1 Alert	21
2.2 Reconnaissance	23
2.3 Intervention	25
2.4 Aftercare	25
2 Risk assessment: look, think, act and check	26
How is ER organised in your company?	27
Questions	28
<b>3 ER team intervention options in the event of fire and evacuation</b>	<b>29</b>
1 Fire safety	29
2 Development of fire	32
3 Fire indicators	34
What are the characteristics of your situation?	40
Questions	41
<b>4 Fire and its causes</b>	<b>43</b>
1 Fire and the fire triangle	43
2 Fire classes	45
3 Causes of fires at commercial properties	46
4 Where fires start	46
Which fire risks apply to your company?	47
Questions	48
<b>5 ER team tasks in the event of a fire</b>	<b>50</b>
1 Assessing a reported fire	50
1.1 Fire indicators	51
Checking a door behind which a fire may be burning	52
1.2 Door procedure	54
Procedure for a door that opens outwards	55
Procedure for a door that opens inwards	56

2	General firefighting rules	57
3	Use of extinguishers	58
3.1	Fire hose reel	58
	Unrolling a fire hose	59
	Extinguishing a fire with a fire hose	60
3.2	Fire blankets	61
	Protecting your hands with a fire blanket	62
	Using a fire blanket on a casualty who is lying down and on fire	63
	Using a fire blanket on a casualty who is lying down and on fire	64
3.3	Extinguishing a pan fire with a lid	64
	Extinguishing a pan fire	65
3.4	Portable fire extinguishers	66
3.4.1	Foam extinguishers	67
	Extinguishing a fire involving solids with a foam extinguisher	68
	Extinguishing a fire involving liquids with a foam extinguisher	69
3.4.2	Powder extinguishers	70
	Extinguishing fires involving liquids with a powder extinguisher	71
3.4.3	CO <sub>2</sub> extinguishers	72
	Extinguishing a fire involving liquids with a CO <sub>2</sub> extinguisher	73
	What are the ER team tasks in the event of a fire at your company?	74
	Questions	74
<b>6</b>	<b>Preparing for an evacuation</b>	<b>75</b>
1	Misconceptions about self-reliance	75
2	Role of the ER team in increasing self-reliance	78
3	People who are not self-reliant enough to leave by themselves	79
4	Dealing with visitors in the event of an evacuation	80
5	Full or partial evacuation	80
6	Evacuation times	81
7	Sequence of evacuation	81
8	Evacuation arrangements	82
9	Facilities, equipment and resources to ensure safe evacuation	82
9.1	Fire detection: fire alarm system	82
9.2	Evacuation alarm system	83
9.3	Megaphone or PA system	83
9.4	Automatic fire suppression systems	84
9.5	Building floor plan	84
9.6	Escape routes	84
9.7	Emergency exits	85
9.8	Compartmentalisation	85
9.9	Emergency lighting	85
9.10	Evacuation equipment	86
9.11	Assembly point	86
9.12	Facilities and equipment for the fire brigade	87
	How well prepared is your company for an evacuation?	88
	Questions	89
<b>7</b>	<b>ER team tasks in the event of an evacuation</b>	<b>90</b>
1	Necessity of evacuation	90
2	Tasks during an evacuation	91
2.1	Starting the evacuation	91
2.2	Division of tasks	92
2.3	How employees respond	92
2.4	Taking charge	93
2.5	Encouraging the use of escape routes and emergency exits	93
2.6	Checking the building	94
2.7	Providing assistance at the assembly point	95

3	Receiving and assisting the emergency services	95
4	Concluding the evacuation	97
	How are evacuations organised in your company?	97
	Questions	98
<b>8</b>	<b>Principles for providing first aid</b>	<b>99</b>
1	Preparations for first aid	99
2	Workplace safety	100
3	Approaching a casualty	101
4	Calling in emergency responders	103
5	Reassuring a casualty	104
6	Moving a casualty	104
	Performing the Rautek technique	105
	Laying the casualty back down	106
	Hopping	106
	Dragging by the ankles	107
7	Dealing with bystanders	107
	Questions	108
<b>9</b>	<b>Wounds</b>	<b>109</b>
1	Causes and characteristics of wounds	109
2	Assessing the casualty	110
3	What to do	111
	3.1 Wound treatment	111
	3.2 Covering wounds with a sterile dressing	112
	3.2.1 Applying a sterile wound dressing	113
	Applying a sterile wound dressing	113
	3.2.2 How to bandage a finger?	114
	How to bandage a finger?	114
	3.2.3 How to bandage a hand?	115
	How to bandage a hand?	115
	3.2.4 Treating a severed finger or fingertip	116
	Questions	117
<b>10</b>	<b>Eye injuries</b>	<b>118</b>
1	Causes and characteristics of eye injuries	118
2	Assessing the casualty	118
3	What to do	118
	3.1 Dirt in the eye	118
	Dealing with a visible dirt particle in the eye	119
	Dealing with a dirt particle in the eye that is not visible	119
	3.2 Foreign object in the eye	120
	3.3 Eye damage caused by a blunt object	120
	Questions	121
<b>11</b>	<b>Bruises and sprains</b>	<b>122</b>
1	Causes and characteristics of bruises and sprains	122
2	Assessing the casualty	122
3	What to do	122
	Applying a support bandage to the ankle	124
	Applying a support bandage to the wrist	125
	Questions	127
<b>12</b>	<b>Fractures, dislocations and spinal injuries</b>	<b>128</b>
1	Causes and characteristics of fractures, dislocations and spinal injuries	128

2	Assessing the casualty	129
3	What to do	129
3.1	Dealing with closed fractures and dislocations	129
	Supporting a broken leg	130
	Supporting a broken arm	130
3.2	Dealing with open fractures	131
	Dressing and supporting an open fracture	131
3.3	Dealing with spinal injuries	132
	Questions	132
<b>13</b>	<b>Burns</b>	<b>133</b>
1	Causes and characteristics of burns	133
2	Assessing the casualty	134
3	What to do	135
3.1	General treatment of burns	135
	How to cool burns	136
3.2	If the casualty is burning	136
3.3	Dealing with facial burns	137
	Questions	138
<b>14</b>	<b>Cardiopulmonary resuscitation</b>	<b>139</b>
1	Chain of survival	139
2	Recognising cardiac arrest	140
	Make sure the situation is safe	140
	Assess consciousness	141
3	CPR	142
	Call 112 or have someone else call 112	143
	Open the airway	143
	Check if the casualty is breathing	144
	Give chest compressions	145
	Give rescue breaths	146
	Once the AED has arrived: connect the AED	147
	CPR with two eros	149
4	Things to remember when performing CPR	150
4.1	Recognising cardiac arrest	150
4.2	Calling 112	151
4.3	Turning a casualty from their stomach onto their back	151
	Turning a casualty from their stomach onto their back	151
4.4	Things to remember when attaching the electrodes	153
4.5	When rescue breaths aren't working	153
4.6	If vomit flows into the casualty's mouth	153
4.7	If the AED detects movement	154
4.8	Starting or stopping CPR	154
4.9	Preventing infection	154
4.10	Performing CPR on children and people rescued from drowning	155
4.11	If you've had to perform CPR in real life	155
5	Recovery position	155
	Recovery position	156
	Checking respiration in the recovery position	157
	Questions	158
<b>15</b>	<b>Other emergency first aid</b>	<b>159</b>
1	Choking	159
1.1	Assessing the casualty	159
1.2	What to do	159
	Clearing an obstruction to the airway	160

2	Quickly turning a casualty onto their side	161
2.1	Assessing the casualty	161
2.2	What to do	161
	Quickly turning a casualty onto their side	162
3	Bleeding	163
3.1	Assessing the casualty	163
3.2	What to do	163
	Controlling the bleeding	164
	Applying a pressure bandage	165
	Controlling a nosebleed	166
4	Shock	167
4.1	Assessing the casualty	167
4.2	What to do	167
5	Angina pectoris and heart attack	168
5.1	Assessing the casualty	168
5.2	What to do	168
6	Stroke	168
6.1	Assessing the casualty	169
6.2	What to do	169
7	Epileptic seizures	169
7.1	Assessing the casualty	169
7.2	What to do	169
8	Diabetes mellitus	170
8.1	Assessing the casualty	170
8.2	What to do	170
9	Brain damage	171
9.1	Assessing the casualty	171
9.2	What to do	171
	Questions	172
	Appendix 1: First aid kit contents	173
	Appendix 2: Ways to report a fire	174
	Appendix 3: Information on fire alarm systems	176
	Appendix 4: CPR and the AED	178
	Appendix 5: Becoming a citizen responder	179
	Appendix 6: 'Do Not Resuscitate' order	181
	Index	182
	Answers to the chapter questions	185
	NIBHV shop	186
